

Welcome to the Framework

Welcome to the DonorWerx Framework, and congratulations on making the investment to increase giving in your church!

As you're going through these lessons, we can't emphasize enough the importance of completing every exercise and worksheet. This will ensure your ability - and that of your team - to complete these campaigns successfully.

While the framework allows you to jump between sections that interest you the most, we've laid out the lessons in a concise manner that provides the most value when they're taken in the order presented.

This is the first step in improving your ministry's ability to do God's work, and we're excited to be on that journey with you.
